

2023 Investment Banking Summer Analyst Program ESG Financing & Advisory

New York – United States | Full-Time Internship | Investment Bank

Your program's highlights

You bring the ambition and talent; we'll open exciting new doors for you. Take the next step in your banking career with the Credit Suisse Investment Banking Summer Analyst Program. In this challenging, rewarding 9-week summer program working with the ESG Financing & Advisory team, you will develop your skills so you can influence tomorrow. Beginning with a one-day company orientation, you'll spend one week in training and eight weeks as an integral part of the team. This position is part of our Investment Bank (IB) division, an industry leader in driving the firm's global success.

Over the course of this program, you continue to learn and develop through ongoing training, and hear from experienced senior employees from a variety of divisions in our summer speaker series. Mentorship opportunities help you identify your strengths and plan your career, while social activities, community service and networking events connect you with a range of people from across the firm. When you complete the program, you will have gained crucial experience in all areas of ESG, and a firm understanding of how a global investment bank functions. Once you've seen the big picture, it's time to paint your own.

Start date: June 5, 2023

Duration: 9 weeks

Academic requirements: You should be graduating from a university in December 2023 or May/June 2024.

Your field of responsibility

You will be placed directly into the ESG Financing & Advisory Group within the Investment Bank. As a Summer Analyst, you will have the opportunity to work on deals in your group, gain hands-on experience and work on all aspects of advising and transacting business for both ESG debt products and investor advisory. You will participate in a formal review at the mid and end points of the summer, and Full-Time Analyst offers will be announced after the program to individuals identified as outstanding performers.

Your future colleagues

Our people are our greatest asset. The strength of the IB rests on our ability to develop and grow the very best talent. As a Summer Analyst you will work alongside some of the most promising industry coverage and advisory bankers and have exposure to senior decision makers at a diverse set of clients. Our bankers demonstrate excellence across a wide range of product areas, with the aspiration of becoming a global leader in ESG and sustainable finance.

Your qualifications and skills

Demonstrate the skills and attributes you bring to this program within the IBCM department. Tell us how your experience, character and vision connect with the responsibilities required and prospects we offer. Show us that you have:

- A confident, ambitious outlook and the ability to work effectively under pressure
- A willingness to cooperate collaboratively and to work independently on your own initiative
- Exceptional organizational skills and a precise, efficient approach to your work
- Excellent interpersonal skills and proven reliability
- A willingness to go the extra mile
- Dedication to fostering an inclusive culture and value diverse perspectives
- An interest in the intersection between environmental, social, and governance factors and the capital markets / corporate success
- Up to date understanding on current environmental, social, and governance topics, especially as they relate to climate change and its impacts across the globe

Your new employer

Your growth is our priority. Credit Suisse offers you the ideal environment to start a successful career, attractive benefits, excellent training, and managers to support your development.

Credit Suisse is an equal opportunity employer. Welcoming diversity gives us a competitive advantage in the global marketplace and drives our success. We are committed to building a culture of inclusion with a deep sense of belonging for all of us. We will consider flexible working opportunities where possible. Our bank provides reasonable accommodations to qualified individuals with disabilities, as well as those with other needs or beliefs as may be protected under applicable local law. If you require assistance during the recruitment process, please let your recruiter know. Credit Suisse complies with applicable federal, state, and local laws, as well as regulatory requirements, regarding considering of employment qualified individuals with criminal histories and prohibiting discrimination in employment in every jurisdiction in which it maintains facilities.

Credit Suisse's role in addressing climate change

We recognize climate change as one of the most significant risks facing our planet. Climate risk is central to our sustainability agenda at Credit Suisse, as we look to limit the impacts that result from the transitional or physical effects of climate change. We continue to work on the measures required to address climate change, in support of a transition towards lower-carbon operations and products.

As a global financial institution, we recognize the important role that we play in combating climate change through support of the transition to a low-carbon and climate-resilient global economy. To achieve this, we believe global financial flows should be in line with the Paris Agreement objective to limit the rise in global temperature to within 2°C above pre-industrial levels, with the aim to achieve a rise of no more than 1.5°C.
